

SCHMOOZE - app store copy

Sick of swiping on dull dating apps that can't keep up with your sense of humor? Say hello to Schmooze - the dating app that's all about matching you with your wit-loving soulmate! We're not your average dating app, we're all about the laughs and the memes. With over 15 million meme swipes and 500K matches, we're the hottest dating app out there.

So, how does Schmooze work its magic? It's simple - just create your "meme-vibe" by picking your fave content themes, and our algorithm will do the rest! Your profile will be straight-up fire, and we'll connect you with people who vibe with your sense of humor. And don't forget to bring your own friends (BYOF) to Schmooze in-app for even more fun!

Make your profile pop by adding photos, your go-to movies, shows, artists, and more! Then start swiping and watch as our humor algorithm matches you with your future hottie.

You choose if you want to snooze or Schmooze your matchrecs. If you both Schmooze, it's a match! Be sure to send your match a message to stand out from the crowd. And don't sweat the small stuff - we've got you covered with some fun prompts to break the ice.

Once you find yourself a match, you'll have 48 hours to slide into their DMs or the chat will disappear. Plus, if you stay active on the app, you can even earn Schmooze Coins, unlocking some seriously dope features (all the more reason to shoot your shot!)

Why memes? Because laughter is the ultimate cure-all, and sharing hilarious content has basically become its own love language. Schmooze offers categories like sports, TV and politics, dark humor or dad jokes, and more to help you find the perfect match. Bookmark your fave memes to browse later, and even share them with your matches or friends (on or off the app!) And if you're a true meme-mastermind, join the Chief Meme Officer Program and upload your comedic brilliance to the app to help other Schmoozers make connections.

So, what are you waiting for? Swipe memes, not people. Start Schmoozing today!
